Hi Stephanie,

Yes, it is on my to do list to follow up with these District's this week or the end of the month, depending on their situation. See my notes for each one in blue below. FYI.

Laura

Hi Laura,

Any updates regarding where the districts are with updating their NSR rules per the EPA model rule language that was used for Calaveras and Mariposa?

- Eastern Kern – last I noted in mid-April, the district had not returned your call – Same, I will call again.
- El Dorado plans to go to their Board on 6/25/19 – Yep, I reviewed their rule for them.
- N. Sierra – Spoke with Sam, gave him the new rule version. I will wait until the end of the month to follow up.
- Tehama – Spoke with Joe, he is supposed to be working on it. I will wait until the end of the month to follow up.
- Amador – is not under a sanctions clock but around Feb. 2018 they were adopting or revising their NSR rule and using Mariposa's rule language as a template, so that is the incorrect language. I spoke Jim and emailed the rules to him. Said they would probably use Ray to do the work. He wanted to have a call with his APCO, but has not called be back, so I will follow up with him this week. They owe a rule both for the 1997 and 2015 ozone standard.
- SLO – I had given the revised rule to APCO months ago, but when I spoke with David W. last month, he didn't know about the assignment. I'll follow up with him by the end of the month.
- Tuolumne – I haven't spoken with this District yet. They are in the same situation as Amador. They owe a rule for both the 1997 and 2015 ozone standard. I will call Bill Sandman and explain the situation this week.

Thanks.

Steph
